## Does Medicaid Cover Braces?

Yes, Medicaid will cover orthodontic treatment, such as braces, for those who are **under the age of 20**. However, you must have a referral from your general dentist, have lost all baby teeth, and have moderate to severe orthodontic problems. Therefore, if you want braces for cosmetic reasons, Medicaid will **not** cover the cost for them. In order to find out if you are eligible, for orthodontic coverage, you must go to a state approved orthodontic provider. Depending on where you go, certain offices only accept certain Medicaid plans

Orthodontic Experts	Various Locations in Chicagoland Area and suburbs.	Varies by location	Serves residents from certain cities in Central Illinois *. Closest clinic to CU is the Homewood, IL location.
