Updated guidance for social/physical distancing: If gatherings are necessary, limit the number of people to 10.

Per Governor Pritzker's Executive Order, beginning March 16, 2020, through March 30, 2020, all business in the State of Illinois that offer food or beverages for on-premises consumption - including restaurants, bars, grocery stores, and food halls - must suspend on-premises consumption, or dining in. Such businesses are allowed and encouraged to prepare food and beverages for off-premises by in-house delivery, third-party delivery, drive-through, and curbside pick-up. Customers may enter the premises to purchase food and beverages for carry-out. However, if your establishment or food truck offers carry-out, you must ensure that patrons have adequate space for social distancing, which is a minimum of six feet between customers. Hotel restaurants may continue to provide room service and carry-out. Catering drop-off services may continue.

The Centers for Disease Control currently recommends practicing social distancing, staying at home when sick, staying home when a household member is sick with respiratory disease symptoms, or when instructed to do so by public health officials or a health care provider.

Social distancing, which consists of maintaining at least a six-foot distance between people, is a very important strategy for minimizing the spread of COVID-19.

The Champaign-Urbana Public Health District appreciates all of the extra efforts your establishment is taking to control this very contagious virus. There are many Champaign County residents that are trusting in your actions and your compassion for their health and safety.

More communication through the SIREN alert system may take place. Please monitor your telephone and e-mail.

If you have any questions, please contact the Environmental Health Division of the Champaign-Urbana Public Health District at (217) 373-7900.
