STOCK 2 FOR PANDEMIC PREPARATION

INDIVIDUALS & FAMILIES

During a pandemic of COVID-19 with community spread, public health officials may urge residents to stay home for a number of days or weeks. This could be to help prevent/slow the spread of the virus and limit the strain on our healthcare system.

Those who have the means can help by stocking up on items that may be needed if required to stay home for an extended period of time due to illness or quarantine.

Don't forget pet food, medications, feminine hygiene & baby supplies. Also stock up on tissues, plastic bags & cleaning supplies should you have to care for an ill household member.

OUR MESSAGE IS SIMPLE: "STOCK 2"! HAVE ENOUGH FOOD & SUPPLIES FOR YOUR HOUSEHOLD FOR 2+ WEEKS.

"Stock 2" is a campaign for home preparedness. We are asking Champaign County to do their best to prepare for this potential threat.

"It is better to have a plan and no pandemic, than a pandemic with no plan."
TIPS FOR BUSINESSES, ORGANIZATIONS, CLUBS, CHURCHES & SCHOOLS

HOW CAN YOU HELP WITH COMMUNITY PREPAREDNESS?

Get involved! Encourage your employees, members, clients, parishioners or customers to prepare. This can be done by putting inserts into employee paychecks, including an article in your newsletter, posting information on bulletin boards, websites, or social media, and linking to the CUPHD COVID-19 website. Encourage them to pass the message on to their friends and family!

In addition to encouraging staff and clients to prepare, your business or organization can also play a key role in assisting those in our community who may have difficulty stockpiling. Consider hosting food and supply drives to create your own stockpile. Identify staff, clients, members, or other residents who are in need of assistance, and help with distribution.

Www.c-uphd.org has posters, checklists and other materials you can download. Please print these materials, distribute them to your family members, employees, friends, and clients. Help us spread FACTS, not FEAR by sharing trusted information from our website on your social media. Let's get the word out about getting prepared!
