**Champaign County COVID-19 Briefing**

Champaign, Ill.— All media briefings are provided under the leadership of the Champaign County Emergency Operations Center (EOC).

We are announcing a cumulative total of 5,424 cases in Champaign County which includes 321 new cases for the time period of October 8-14, 2020. In addition, we are reporting one more death in Champaign County. This person was a female in their 60s with underlying health conditions. There has been a total of 28 COVID-related deaths. These numbers are accurate as of the release time.

For daily information on demographics, please visit CUPHD’s website at: <https://www.c-uphd.org/champaign-urbana-illinois-coronavirus-information.html>.

**Additional resources and information**

**Influenza** – This year it is more important than ever to get a flu shot. Each season, millions of Americans are sickened with flu, hundreds of thousands are hospitalized, and tens of thousands die. This season we are also battling COVID-19, another virus that can cause severe respiratory illness. While a vaccine for COVID-19 is still under development, there is a vaccine for flu that has been proven to be safe and effective over the past 50 years. Getting a flu vaccine can help you avoid co-infection with COVID-19 and flu.

Your best protection against flu is the flu vaccine. Please get yours today and avoid co-infection with COVID-19.

**Halloween guidance** – The Champaign-Urbana Public Health District (CUPHD) and the Illinois Department of Public Health (IDPH) have issued guidance for safer practices during Halloween this year. Because some of the traditional ways to celebrate this holiday do not allow for proper social distancing, CUPHD encourages all communities throughout Champaign County to follow the guidance to allow for safe Halloween celebrations.

Trick-or-treating events need to incorporate social distancing, masking, and proper handwashing, as well as adherence to event size limitations. For this year, it would be safest to plan special events at home, using social media and other meeting platforms to connect with family and friends. As a reminder, if you think you could have COVID-19 or may have been exposed to someone with COVID-19, you should not participate in in-person Halloween festivities and should not give out candy to trick-or-treaters. Individuals at increased risk for severe illness should not attend in-person Halloween gatherings.

---

**CHAMPAIGN COUNTY/UNIVERSITY OF ILLINOIS JOINT COVID EMERGENCY OPERATIONS CENTER  
11 GERTY DRIVE, CHAMPAIGN, ILLINOIS 61820**

Neighborhood trick-or-treating includes the following:

- 1) As an alternative to door-to-door trick-or-treating, anyone who would like to distribute treats should leave individually wrapped candy or treats on a table, on their front walkways, sidewalks, or any outdoor space that allows for at least 6 feet of social distance from the door. The individually wrapped candy should be spread out so each piece is not touching another. Anyone distributing candy or treats should wash their hands properly for at least 20 seconds before placing the candy on the table and when replenishing.
- 2) All individuals participating in trick-or-treating, including those passing out candy, should maintain social distance of least 6 feet and wear proper face coverings. A costume mask, such as those worn for Halloween, is not a substitute for a face covering. If face coverings are worn under costume masks, please ensure this does not create breathing problems, and if so, discard the costume mask.
- 3) Only household members should trick-or-treat together, and they should maintain 6-foot social distance from other trick-or-treaters at all times. Mixed household trick-or-treaters are discouraged.
- 4) Alcohol-based hand sanitizer should be carried and used frequently.
- 5) Candy collected during trick-or-treating should not be consumed until after handwashing. As always, a parent/guardian should check all candy to make sure it is wrapped and should discard unwrapped candy.
- 6) And, of course, practice good dental hygiene as well.
- 7) Outdoor areas are preferred for trick-or-treating. Enclosed indoor areas, like apartment buildings, present greater risk of transmission. Open doors and windows as appropriate to promote increased ventilation.

Additional information on alternative activities, Día de los Muertos, and what to do if you participated in higher-risk activity or think that you may have been exposed during your celebration can be found on CUPHD’s Facebook page and website at: <https://www.c-uphd.org/champaign-urbana-illinois-coronavirus-information.html>.

**COVID-19 testing option** - COVID-19 testing site is available at the Market Place Shopping Center in Champaign.

This is a service that can be obtained without a doctor’s referral, code, or appointment. Tests are available for anyone, including individuals walking up to the site, and there is no limit to the number of tests one person is allowed to take.

8:00 a.m. – 4:00 p.m. (7 days a week while daily supplies last)  
Market Place Shopping Center, 2000 N. Neil Street, Champaign

Testing site is located on the east side of the mall – enter through the south mall entrance off of Market Street

***\*This site will close during inclement weather***

---

## CHAMPAIGN COUNTY/UNIVERSITY OF ILLINOIS JOINT COVID EMERGENCY OPERATIONS CENTER 11 GERTY DRIVE, CHAMPAIGN, ILLINOIS 61820

**Testing** - The test is quick and painless with a 10-15 second swab inside of each nostril. According to the Illinois Department of Public Health, the nasal swab has the same sensitivity to detect coronavirus as the nasopharyngeal swab and is CDC approved. The Champaign testing site uses a local laboratory and results are typically received within 24-48 hours. You will be called with results and must answer the phone. You'll receive a call from an 888 number and no message will be left. When you receive verbal results over the phone you can request a paper copy to be sent to you.

**Please note** - Patients receiving required pre-surgery or pre-procedure testing should receive that test as directed by their doctor's office to avoid delays.

**211** - This is a service provided by the United Way with trained specialists to match people to the right service agency based on your individual needs. For access, dial 211 or visit the Champaign County 211 website at [uwayhelps.org/211](http://uwayhelps.org/211).

**Champaign County COVID-19 Resource Site** - During this challenging time, the community is coming together to provide solutions. A county website has been created to provide information, updates and needed resources that provide support. This information can be found at: [champaigncountycovid19.org](http://champaigncountycovid19.org)

The COVID-19 website will be updated as new information is received.

### COVID-19 Patient Resources

#### Carle (217) 902-6100

- The Carle COVID-19 Hotline is open 24/7 to assist patients with an assessment and direction on when or where to seek care and/or testing.
- Carle offers an [online assessment tool](#) to begin screening for COVID-19.
- Carle is offering video visits for those who prefer to see their physician from the comfort of their own home, while safely distancing from others. Patients can go to [mycarle.com](http://mycarle.com) or call their doctor's office to see if a video visit is the right choice for them.
- Carle remains open to meet essential Primary and Specialty Care needs. Your provider may address many health needs by phone or video visits. In-person visits require a mask for all and follow social distancing best practices and enhance cleaning routines at our locations. All Carle Emergency Departments remain open for people needing immediate care for life-threatening emergencies.
- [Carle cares for you](#): Get tips for a healthy community at school, at work and at play.

#### Champaign-Urbana Public Health District (217) 239-7877

- CUPHD's COVID hotline is available seven days a week between the hours of 8 a.m. – 5 p.m. If you do not reach a person, leave a voicemail that includes your name and phone number with a brief message.
- Email [coronavirus@c-uphd.org](mailto:coronavirus@c-uphd.org)
- Updated information available at [c-uphd.org](http://c-uphd.org).
- Follow Champaign-Urbana Public Health District on Facebook, Twitter and Instagram for up-to-date information.

#### Christie Clinic

- Patients with questions or concerns or who want to inquire about testing are asked to call their provider's office.

---

## CHAMPAIGN COUNTY/UNIVERSITY OF ILLINOIS JOINT COVID EMERGENCY OPERATIONS CENTER 11 GERTY DRIVE, CHAMPAIGN, ILLINOIS 61820

- Christie Clinic providers are now available for preventative care appointments and elective procedures. We have taken precautionary measures to open our doors for non-urgent healthcare concerns. Patients can visit their MyChristie patient portal or call their provider to request an appointment.
- Need Urgent Care? Visit a Christie Clinic Convenient Care.
  - Launched June 1: Christie Clinic Curbside Convenient Care: 1801 West Windsor Road, Champaign, IL 61822
  - Reopened June 1: Christie Clinic in Mahomet: 1001 Commercial Drive, Mahomet, IL 61853
  - Christie Clinic in Danville on Vermilion: 3545 North Vermilion Street, Danville, IL 61832
  - Christie Clinic in Urbana: 1710 East Windsor Road, Urbana, IL 61802

### OSF 833-OSF KNOW (833-673-5669)

- The COVID-19 Nurse Hotline is staffed by OSF registered nurses around the clock, and during times of heavy usage will be staffed by other OSF health care professionals.
- Clare, the virtual assistant chatbot on [osfhealthcare.org](https://osfhealthcare.org), is equipped to begin screenings for and educate the public about COVID-19.
- **OSF SilverCloud**-An online platform available at [osfhealthcare.org/silvercloud](https://osfhealthcare.org/silvercloud), available 24/7 to help manage stress, anxiety and depression. It's backed by a live health care professional who can direct users to in-person or telehealth care if necessary.
- OSF HealthCare has launched a Pandemic Health Worker Program (PHWP) that serves individuals with COVID-19 symptoms. A person is eligible for the PHWP if he or she is showing COVID-19 symptoms, or is at high risk for contracting the virus, but does not require emergency or inpatient care, and can be digitally monitored at home. They must first call the COVID-19 Nurse Hotline (**833-OSF-KNOW**) and be digitally triaged by a nurse. Depending on the answers to the screening questions, the nurse or other provider will determine if they are eligible for the PHWP. If enrolled, the client will be notified and receive a phone call from a Pandemic Health Worker within 48 hours.
- OSF HealthCare is offering video visits for those who prefer to see their physician from the comfort of their own home, while safely distancing from others. Patients can go to [osfmychart.org](https://osfmychart.org) or call their doctor's office to see if a video visit is the right choice for them.

### Promise Healthcare

Promise is now available for all primary care needs including, prenatal, vaccinations and well child exams. Most dental services are now available with SmileHealthy. All patients are screened for COVID-19 symptoms and risks at time of scheduling and at check in. The waiting area is appropriately spaced apart and an additional waiting area is available for those that present with symptoms or other risk factors.

Call (217) 356-1558 for care at **Frances Nelson**

Call (217) 693-4660 for care at **Promise on Walnut**

Call (217) 403-5477 for dental care with **SmileHealthy**

COVID-19 testing is available outside Frances Nelson. Both swabbing and serum tests are available. Call our COVID-19 Care Line at (217) 403-5402. Testing is available from 8:00 – 5:00, Monday through Friday at Frances Nelson, 819 Bloomington Road, Champaign. The provider will determine which test is clinically appropriate.
