Tobacco Programs

Smoke Free Illinois compliance

Education/enforcement program for Smoke Free Illinois. We handle all the complaints from the state for Champaign County as well as those from our website. We help businesses to comply with the laws, and report to the State's Attorney if they do not.

County	# of Complaints	0

Break the Habit

We have transitioned Break the Habit to the Illinois Tobacco Quitline. People interested in quitting can call the Quitline and get individual phone counseling from Addiction Specialists. If interested call 866-QUIT-YES (866-784-8937).

Not Here

A tobacco sales compliance program. We notify all tobacco vendors that we will check for compliance with minimum age laws. After we test the stores, we send congratulatory letters if they pass, as well as notices of failure. This is in cooperation with local law enforcement. Vendors are checked for compliance 3 times per year.

Illinois Breast & Cervical Cancer Program (IBCCP)

IBCCP contracts with local medical providers to provide free breast and cervical cancer screening for Illinois women ages 35-64 with no health insurance, Medicaid, or Medicare part B. The CUPHD IBCCP serves women from Champaign, McLean and Vermilion Counties. CUPHD IBCCP provides community outreach as well as educational materials and presentations throughout our service area to encourage all women to have their annual screenings done and to seek new client enrollment in order to provide uninsured screenings for women who would otherwise have no access to these services. Approximately 40% of the screening tests yield abnormal results requiring IBCCP medical case management and diagnostics services. While women under the age of 35 are not eligible for screening through this program, they may be eligible for medically indicated diagnostic services if referred by their medical provider. If diagnosed, eligible women are transferred into Medicaid for cancer treatment.

February 2017

IBCCP continues to focus on outreach, not only working with providers but also finding new places where our target population receives services. The pop-up food banks have been an excellent way to spread the word to both women and men: men can be a crucial connection in our outreach efforts. They are eager to share our message and materials with the special women in their lives.

The most popular item we have to give away is a large reusable shopping bag, with our contact information and an educational message imprinted on the side. These bags are roomy and strong, perfect for use at food pantries and clothing distribution sites. The number of exposures per bag proves the cost of the bags to be well worth the expenditure, and seeing the bright purple bags always brings a smile to the faces of those who receive them.

*Champaign-Urbana indicates women residing in the city limits of Champaign and Urbana. Champaign Co. indicates women residing in Champaign County, but outside the city limits of Champaign and Urbana. These columns must be added together for the total number of Champaign County women served.
